

Global AI Compute and Network Infrastructure MSP

SECURE . CONNECT . INNOVATE

Explore CypressTel, your partner for carrier-neutral,
AI-powered connectivity.

WHO WE ARE

CypressTel is a carrier-neutral global AI compute and network infrastructure managed service provider, delivering the foundation for secure, high-performance digital services across Asia and worldwide. By combining AI-ready compute, low-latency networking, and intelligent security, CypressTel helps enterprises, carriers, and partners build and operate modern infrastructure for cloud, data, and AI workloads.

Powered by AI and automation, CypressTel optimizes application performance, protects critical data, and anticipates incidents before they affect users. This integrated approach to AI infrastructure and connectivity enables customers to scale AI, multi-cloud, and data-intensive services with greater confidence, agility, and control.

FACTS AT A GLANCE

18	30 +	140 +	300 +	10,000 +	10T +
Years of Experience	Data Centers	Network PoPs	Global Cities Coverage	Global Customer Sites	Network Capacity

Accreditation & Certification

SD-WAN Ready & SD-WAN Ready 2.0 Certificates
SASE Maturity Enhanced Level Certification
ISO 9001:2015 & ISO/IEC 27001:2013 Standards
Global Telecommunications Compliance Certifications

Awards & Accolades

Future Digital Awards 2025 - Best Connectivity Solution
W.Media Cloud & DataCenter Award 2025 - Global SD-WAN Project
SD-WAN Convergence Innovation Application Award 2024
Most Valuable SD-WAN & SASE Brand Award 2023
Outstanding SASE Case 2021

WHO WE SERVE

Telecom carriers, service providers, channel partners, multinational enterprises, and cloud-driven businesses seeking secure, scalable, and high-performance global connectivity.

OUR PRODUCTS & SOLUTIONS

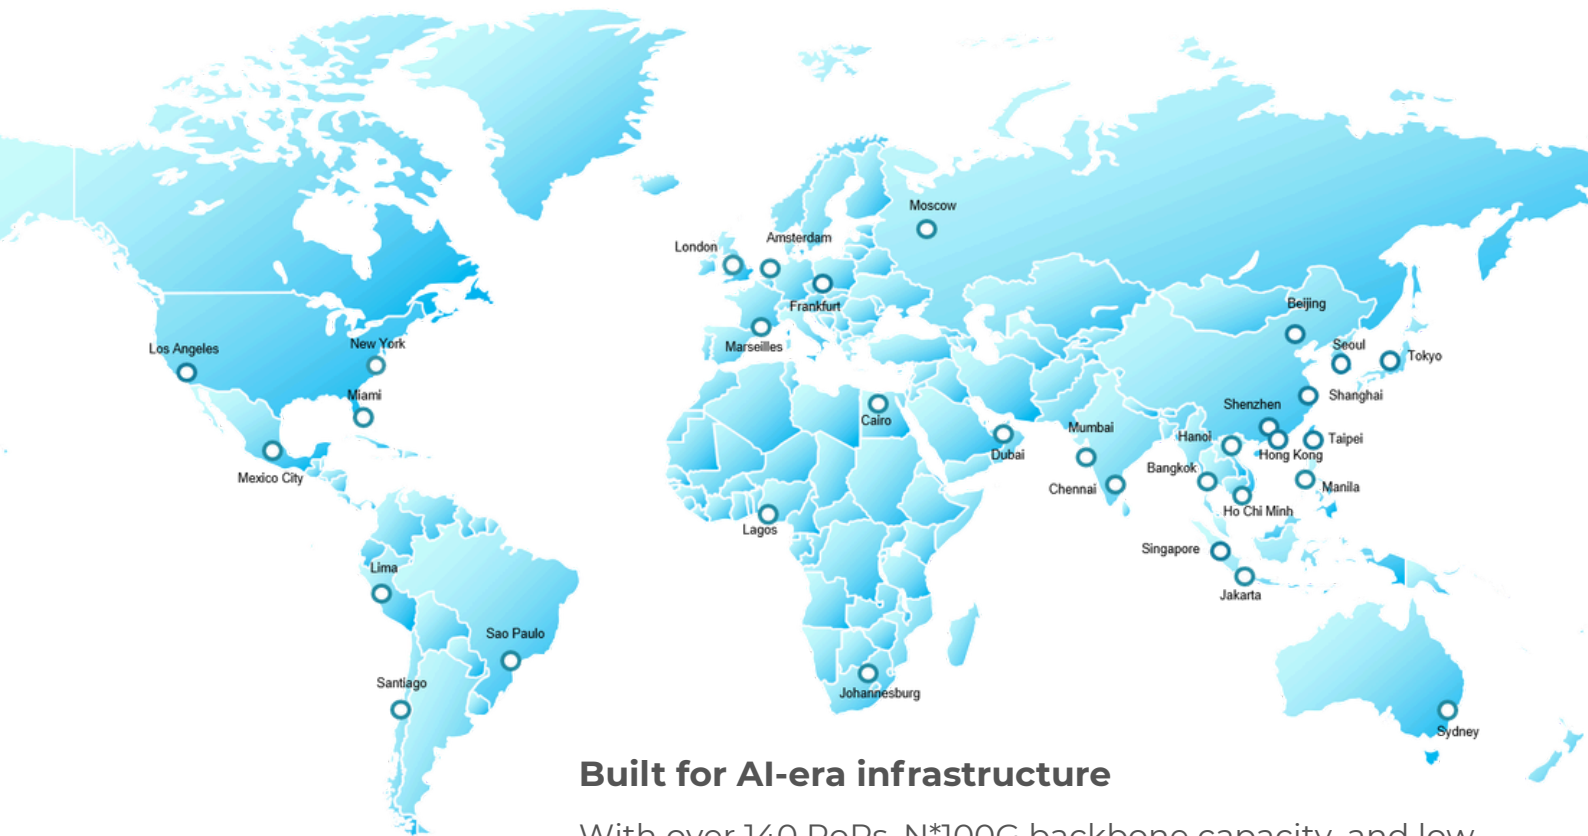

Network & Security Solutions

- OneWAN SD-WAN
- OneWAN SASE
- Global Internet Access
- OneCare Private Network
- IP Transit
- Last-Mile Access
- OnePlat vPoP

Cloud & Data Center

- CloudPress Cloud Direct Connect
- Cloud Managed Service
- One2C Multi-cloud Platform
- Data Center Connectivity

GLOBAL COVERAGE

Built for AI-era infrastructure

With over 140 PoPs, N*100G backbone capacity, and low-latency routes into major cloud and AI regions, CypressTel's network is engineered to support AI workloads, data platforms, and real-time applications at scale.

Unmatched Global Network Delivery

- Carrier-neutral connectivity across strategic global markets
- AI-Powered SD-WAN and SASE Solutions
- End-to-End Network Optimization and Security
- Seamless Cloud and Data Center Integration
- 24/7 Support with 99.99% Reliability

WHY US

Global Network Reach

1

CypressTel provides seamless connectivity across Asia and key international markets, helping carriers, partners, and enterprises expand service reach and support global growth with confidence.

Dynamic Partner Ecosystem

3

CypressTel works with global innovators, cloud providers, and data center operators to deliver flexible, future-ready solutions that help customers launch services faster and unlock new opportunities.

Trusted by Industry Leaders

5

With 18 years of experience and more than 10,000 customer sites deployed, CypressTel brings a proven track record of delivering reliable solutions for diverse business and operational needs.

Proven SD-WAN, SASE and AI Infrastructure Expertise

2

CypressTel combines secure SD-WAN and SASE with deep experience in designing and operating AI-ready network and cloud infrastructure, helping customers run critical applications and AI workloads more efficiently.

End-to-End Infrastructure and Network Solutions

4

From access and backbone to data center and cloud, CypressTel delivers an integrated infrastructure stack — compute, connectivity, and security — managed as a unified service to reduce complexity and total cost of ownership.

Rock-Solid Support

6

Our 24/7 global Network Operations Centers and Security Operations Centers, supported by AI-driven monitoring and automated remediation, help keep customer networks running smoothly and securely.

AI-powered Intelligent O&M

-  AI ChatOps for faster partner and operational support
-  Predictive fault detection and capacity insights to reduce downtime
-  Automated troubleshooting and policy-based operations for faster recovery and more consistent service delivery

Partner with Us

Partner with CypressTel to expand your reach, accelerate innovation, and deliver secure, future-ready connectivity for the AI era.
